INTRODUCTION

This publication reports the average rates paid by Kansas farmers and ranchers for custom work performed on their operation in 2009. A special thanks to the 1,387 farmers and ranchers, custom operators, co-ops, and elevators for their response to this survey.

The data in this book provide additional information to custom operators, farmers, and ranchers for making decisions about rate charges. The prices reported here should not be regarded as official or established rates. The average figures in this book give equal weight to all reports received.

The prices in this book include charges for machines, power, fuel, and the operator. These prices do not include the costs of chemicals, seeds, and other materials. The one exception is hay baling materials. Exchange work between farmers is not considered custom work.

There are large variations in the rates charged for specific jobs. For many items, the State averages may not be typical of any particular locale. There are many reasons for price differences. Some farmers may charge lower prices to neighbors, relatives, or close friends. Soil conditions and field sizes are also significant factors. Rates are often lower in western Kansas where the larger farms are well suited to extensive operation with heavy equipment.

The average custom rates charged in 2009 have generally decreased when compared to rates reported in 2008. Of the more than 111 custom work items or machinery rentals in this report, 69 decreased in price, 39 increased in price, and 3 remained unchanged. The report contains historical tables and graphs which show the results of previous surveys.

In the past year, we have received many comments about the Custom Rates report from the agricultural community. We appreciate this feedback and encourage readers to continue sharing their ideas and suggestions regarding this survey.

GRAIN HARVESTING

WHEAT: Custom harvesters charged an average of \$20.86 per acre for harvesting wheat in 2009, down 79 cents from 2008, the first rate decrease since 1999. In many cases, custom harvesters will include an additional charge per bushel to customers with high yields. In 2009 that charge was an average of 20 cents per bushel of wheat for yields greater than 22 bushels per acre. The 2009 flat rate charge per bushel was 20 cents, down 2 cents from last year.

GRAIN HARVESTING (Continued)

GRAIN SORGHUM: Custom harvesters charged an average of \$22.37 per acre for harvesting grain sorghum in 2009, down 62 cents from 2008. In many cases, custom harvesters will include an additional charge per bushel to customers with high yields. In 2009 that charge was an average of 20.4 cents per bushel of grain sorghum for yields greater than 35 bushels per acre. The 2009 flat rate charge per bushel was 24 cents.

SEED CLEANING

Wheat seed cleaning with treatment averaged \$1.36 per bushel, down from \$1.45 the previous year. Rates for cleaning wheat without treatment averaged 58 cents per bushel, compared to 60 cents in 2008. The average cost of cleaning soybeans without any treatment was 73 cents, unchanged from last year.

SILAGE OPERATIONS

Custom rates for silage operations were separated into four categories: 1) chopping, hauling, and filling the silo, 2) chopping and hauling, 3) chopping only, and 4) hauling only. The average rate per ton for the complete silage operation was \$7.39 per ton, down from \$7.93 the previous year. Operations which included only chopping and hauling averaged \$6.54 per ton, down 32 cents from 2008. Chopping averaged \$4.68 per ton, compared to \$5.61 the previous year, and hauling averaged \$2.18 per ton, down 54 cents from last year.

HAYING (Continued)

Custom baling of small square bales with wire cost an average of 91 cents per bale, while baling with twine averaged 92 cents per bale in 2009. Large round bales weighing less than 1500 pounds without net wrapping cost an average of \$10.45 per bale, while bales of the same size with net wrapping cost an average of \$10.71 per bale. Large round bales weighing over 1500 pounds without net wrapping cost an average of \$10.56 per bale. Bales of the same size but being net wrapped, cost an average of \$10.86 per bale. The charge for large square bales weighing about one ton averaged \$13.58 per bale, down \$1.18 from 2008.

PLANTING (Continued)

Minimum-Till or No-Till

Rates for minimum-till planting of small grains averaged \$13.31 per acre, down from \$13.73 in 2008. Minimum-till grain sorghum planting averaged \$13.63 per acre, up 14 cents from last year's rate. Corn planting averaged \$13.70 per acre, an increase of 13 cents. Soybean planting averaged \$13.68 per acre, down from last year's average of \$14.07 per acre.

CHEMICAL APPLICATIONS

The custom rates for chemical applications presented here include the cost of machine, power, and the operator; however, the cost of the chemicals is excluded. Rates charged for crop cultivation with fertilizer application averaged \$8.00 per acre, while cultivation without fertilizer application averaged \$7.24 per acre. This compares with \$8.41 and \$8.46 per acre, respectively, in 2008.

FEED PREPARATION

Rates for custom feed preparations are those generally charged by grain elevators and feed mills. Rates charged in 2009 were similar to those reported in 2008. Reports averaged 41 cents per hundredweight (cwt.) for grinding grain, 37 cents per cwt. for rolling grain, 61 cents per cwt. for grinding hay, 32 cents per cwt. for mixing, 61 cents per cwt. for rolling and mixing, and 67 cents per cwt. for grinding and mixing.

FEED DELIVERY

There are a number of different methods of charging for bulk feed deliveries. Rates for the most commonly reported methods are presented below. Though several types of charges were reported, some could not be summarized for this report due to an insufficient number of reports. Many operators also charged extra for miles beyond a specified limit. For all methods, the average extra charge was \$2.10 per mile per load after 19 miles.

MACHINERY RENTAL

Rental costs listed below do not include the cost of fuel or labor for self-propelled equipment and tractors. Fertilizer applicators were the most commonly reported rental items, followed by tractors, combines, and planting equipment. Many items, such as cultivators, chisels, and mower/conditioners, were reported but had too few reports to summarize.

Rental charges are similar to those reported in recent years. Average rental costs for most items show increases or decreases due to the varied demand and increasing costs of implements. Some of the variation may be due to the small number of reports for some rental items.

Machine Rental Rates, 2009

Machine or Tool	Method of Charge	Number of Reports	Range	Average
Combine	\$/Hour	9	100.00-185.00	150.30
Corn Head	\$/Acre	^{1/}		
No-Till Drill	\$/Acre	5	6.70-10.00	8.34
Drill Seeder	\$/Acre	^{1/}		
Fertilizer Applicators				
Dry	\$/Ton	6	8.00-24.00	13.04
Dry	\$/Acre	4	1.25-3.50	2.31
Anhydrous	\$/Ton	^{1/}		
Anhydrous	\$/Acre	4	1.25-4.80	2.76
Dual	\$/Acre	^{1/}		
Liquid	\$/Acre	^{1/}		
Chemical Sprayer	\$/Hour	3	2.50-20.00	8.50
Tractor				
51-100 Horsepower	\$/Hour	3	18.00-50.00	36.00
101-150 Horsepower	\$/Hour	5	20.00-45.00	31.80

FENCE BUILDING

Rates for fence building listed below were reported on the Bluestem Pasture Survey completed in April of 2009. Producers in the 14 Flint Hills counties were surveyed and asked to provide current fence building costs. The reported rates varied considerably due to the difference in materials, equipment, and terrain. The rate charged for building a five-wire, all-steel post fence, excluding materials, averaged \$11.90 per rod. The rate including materials averaged \$20.30 per rod. Average hourly rates charged for fence building are \$41.50 per hour with equipment, and \$21.67 without equipment.

Custom Rates for Fence Building, per Rod, 2009^{1/}

Fence Type	Steel Posts Only			Steel & Wood Posts Only		
	Number of Reports	Dollars per Rod		Number of Reports	Dollars per Rod	
		Range	Average		Range	Average
Four Wire	^{2/}	Excluding Materials		3	1.72-12.00	7.66
Five Wire	21	2.81-49.50	11.90	14	4.50-74.25	20.00
Four Wire	^{2/}	Including Materials		^{2/}	Including Materials	
Five Wire	24	3.75-41.25	20.30	14	5.31-41.25	25.10

^{1/}Additional charges for rough and rocky terrain ranged from \$.15 to \$5.00 per rod and averaged \$2.58 per rod.

^{2/}Insufficient number of reports.

Custom Rates for Fence Building, per Hour, 2009

Custom Fence Builders	Number of Reports	Dollars per Hour		Average Number of Persons
		Range	Average	
With Equipment	5	12.50-65.00	41.50	1.6
Without Equipment	3	10.00-35.00	21.67	1.0
